

Technical Seminar

# Project Sharing on Awarded Energy Efficient Buildings in Asia Pacific Region

## Program Overview

This seminar invites the awardees of ASHRAE Society/Regional Technology Awards from ASHRAE Region XIII to share their successful projects in the areas of occupant comfort, indoor air quality (IAQ) and energy conservation. The ASHRAE Technology Awards recognize outstanding achievements by members who have successfully applied innovative technology in the design and operation of energy efficient buildings. Their designs incorporate ASHRAE standards for effective energy management and IAQ. Performance is proven through one year's actual, verifiable operating data.
